

EMPOWERING BUSINESS THROUGH TECHNOLOGY AND TALENT

IT staffing, consulting and digital solutions for the next stage of growth.

Technology expertise. Talent that delivers.

A technology consulting and IT talent solutions partner helping organizations accelerate digital transformation.

Technodeed Services brings together specialized talent, technical consulting and delivery capabilities to help organizations solve complex technology challenges.

Flexible support aligned to business priorities

Specialized skills across modern technology ecosystems

A practical focus on execution, security and scale

PEOPLE • PLATFORMS • PROGRESS

6

core service areas

6

industries served

3

ways to engage: staffing, consulting and technology services

One partner across talent and technology

Bring the right people, expertise and delivery model together.

IT staffing & talent

Contract staffing, contract-to-hire and permanent placements.

Technology consulting

Strategy, modernization and process optimization.

Cybersecurity

Risk mitigation, security architecture and compliance support.

Cloud & infrastructure

Cloud migration, DevOps enablement and cost optimization.

Data & AI

AI platform engineering, LLM integration and enterprise adoption.

Project delivery

Dedicated teams, managed delivery and implementation support.

Technology change is accelerating

Organizations need to modernize while managing talent, risk, cost and delivery pressure.

Talent gaps

Hard-to-find technical skills can slow hiring and execution.

Transformation pressure

Legacy systems and evolving customer expectations demand change.

Security & compliance

Growing threats require experienced security capabilities.

Delivery complexity

Projects can exceed timelines and budgets without the right teams.

THE TECHNODEED RESPONSE

A trusted partner for expertise and execution.

We connect skilled professionals with consulting and technology delivery, helping clients move forward with greater confidence.

From business challenge to practical solution

Capabilities are aligned to the problem to be solved, not a one-size-fits-all package.

CHALLENGE		TECHNODEED SOLUTION
Technology hiring	➔	IT staffing & talent solutions
Digital modernization	➔	Technology consulting
Security threats	➔	Cybersecurity services
Cloud adoption	➔	Cloud & infrastructure solutions
AI transformation	➔	Data & AI expertise
Project execution	➔	Dedicated delivery teams

Modernize. Connect. Innovate.

Capabilities that support secure, scalable and future-ready operations.

CLOUD & INFRASTRUCTURE

- ✓ AWS migration
- ✓ Microsoft Azure solutions
- ✓ DevOps enablement
- ✓ Infrastructure automation
- ✓ Cloud cost optimization

DATA & ARTIFICIAL INTELLIGENCE

- ✓ AI platform engineering
- ✓ Enterprise AI adoption
- ✓ Large language model integration
- ✓ Governance and security controls
- ✓ Data science capabilities

Technology solutions across sectors

We tailor talent and technology support to the context, priorities and operating needs of each industry.

Healthcare

Secure, dependable digital operations.

Telecommunications

Scalable platforms and connectivity.

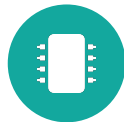

Financial services

Resilience, security and modernization.

Manufacturing

Connected operations and automation.

Technology

Specialized skills and product delivery.

Retail

Customer-focused digital experiences.

Technology and talent, working together

A flexible partner focused on helping organizations innovate faster and reduce delivery friction.

01

Integrated capabilities

Staffing, consulting and technology services in one partner.

02

Flexible engagement

Adaptable models aligned to project scope and team needs.

03

Cross-industry perspective

Experience spanning multiple business environments.

04

Modern technology focus

Cloud, AI and cybersecurity capabilities for evolving needs.

05

Execution-minded delivery

A practical focus on outcomes, collaboration and progress.

06

Access to specialized talent

Support for hard-to-fill roles and technical skill gaps.

Commercial models for hiring, advisory and delivery

Engage with a focused service or combine capabilities across a broader initiative.

Staffing services

- ✓ Contract staffing
- ✓ Permanent placement fees
- ✓ Executive search fees

Consulting services

- ✓ Strategic advisory
- ✓ Fixed-price projects
- ✓ Time & material engagements

Technology services

- ✓ Cloud implementation
- ✓ Cybersecurity projects
- ✓ Digital transformation programs

KEY TECHNOLOGIES

Powering innovation

CLOUD & DEVOPS

AWS

Microsoft Azure

DevOps

Kubernetes

Docker

Terraform

LANGUAGES, PLATFORMS & DATA

Python

Java & Spring

.NET

Salesforce

Data science

LOOKING AHEAD

Build what's next. Together.

Our vision is to expand specialized talent access, scale consulting, accelerate AI adoption, strengthen cybersecurity and build long-term client partnerships.

LET'S BUILD YOUR NEXT CHAPTER

technodeedservices.com

01

Expand IT staffing practice

Increase access to specialized technology talent.

02

Scale consulting services

Support enterprise digital transformation initiatives.

03

Accelerate AI solutions

Enable next-generation AI adoption.

04

Strengthen cybersecurity portfolio

Address growing security requirements.

05

Build long-term client partnerships

Focus on recurring and managed-services value.

Let's build your next chapter, together.

Technology and talent, working together for growth, transformation
and secure, scalable operations.
